(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to work with a communion with Three Star One. The Three Star One is a beautiful being that ensouls your Universe or might be... well and the two sister Universes with it in the Holy Trinity. So your particular Universe has a Logos or Being that ensouls the entire Universe and that is known as Melchizedek.

Melchizedek is part of a triad. So Melchizedek’s Oversoul, if you will, is a feminine presence that we call the Three Star One. The communion with this Three Star One is what brings about World Peace. I believe that we have that [full Invocation] is posted on the website under Glossary of Terms. [Provided at the end of this transcript for your convenience]

Now the Three Star One is something we are going to simply *meld* with right now. And you might just feel her energy coming in right through the crown, the third eye, and some of you will feel it most strongly in the torso.

It changes the cellular operation so that the cells are much more liquid and flowing. To relate this to something you understand, maybe it is sort of being in the Tao, that’s spelled T-a-o for those of you not familiar with Taoism. Being in the Tao, being in the *flow* of the Universe.

Our reason for communing here with the Three Star One is to create a resonance of Peace inside the body and we'll keep increasing that vibration. [Our reason is] also to liquefy, thereby releasing blockages or stuck energy in the consciousness.

Now all of the teachings that I give are experiential, meaning that you feel them or you feel something, you experience a shift in your consciousness, a shift in your reality. And when it is experiential it means that it made it *solidly* into your *consciousness*. It wasn't just a theory. It's in there. So anything that you can *feel* is *real*. To reiterate that -- if you think something scary and you keep working at thinking something scary, your body will go into a state of fear and you will feel the fear. So what we want to do here is release all that energy and get into the feeling of that Love and that Peace. And once you've resonated with that *vibration*, with that *feeling*, with that *experience*, it becomes the *reality*.

You have the dynamic of duality in this Universe so naturally what you do as a co-creator is you play with this side of the coin, and you flip it over and you play with that side of the coin and then you flip it over again and you might just toss the coin a few times to see where it lands. So you do that with positive and negative. And in this case, I am talking about Peace and War.

As conscious Light workers, please focus on the side of the coin or the aspect of duality that is Peace and commune with the Three Star One to bring it to the planet. To actually anchor it as an experience that everyone can feel. And the more times or the more frequencies of feeling it makes it a reality faster.

For example, if you spend 30 seconds communing with Three Star One maybe 10 times a day, what you've done is bring the energy to the World, to Humanity, and most of all resonating at your experiential cell level. And that will help bring about World Peace. Rather quickly, I might add.

Alright dear ones. This has been your Spirituality Article for this week. I hope you enjoy the information and as always I send my love to you.
