(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to begin with what I call “Psychic Vision”. This is literally a technique for using the eyes in a different manner. If you imagine your physical eye, your eyelids and all of the components there, then you imagine a covering over that, that would be the psychic eye. You literally can just open the psychic eye.

Now sometimes you do this perhaps in your sleep or when your eyes are closed. Maybe you are napping, but you can sense movement in the room. Maybe you noticed the dog just came into the room or what not. So you have kind of a natural other eye right on top of the physical eyes. Then there is also the third eye energies, but we are dealing now with the psychic eye which is really another energetic set of eyeballs.

So practice just opening your psychic eyes specifically when you want to look at a possibility in your own future, when you want to look at the world finances and those conditions coming up and how they may affect you. Maybe you may want to take a look at the development of a relationship of some sort or perhaps also as a night vision technique, because it is a way of seeing because it is dark out. Then what happens is when the psychic eyes are open you see more in shadows, similar to night vision goggles or something. You can actually see shapes and anything with a strong light force glows more white or has more energy to it. Things with lesser energy light force or perhaps negative energy will then show up darker, almost like a black and white image when you are developing the psychic eyes or when they are developed and you are using them.

Alright. Now keep in mind that, as always, it is important to filter out your belief system when you are doing any kind of spiritual growth and personal growth because conditioning of the mind will influence the outcome. What you want to do ideally, whenever possible, is take a fresh look at the moment, in the moment, so that you are not carrying with you thoughts of the past or thoughts of the future. Living in the now, existing in the present moment, is always the practice at hand, and especially so when using something very precious like your psychic eyes.

Alright. Have fun playing with them and as always, thank you and my love to you,

Djwhal Khul
