(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We have Jupiter in Aries occurring on 1-22-11. The vibration stays with us for a few months causing quite a bit of expansion.

We are going to be dealing with a few configurations this year that are very, very potent in a heavenly way of looking at it. And this is a time to really, I would say willingly, expand your consciousness.

Willingly embrace changing from small thinking to big thinking. Or rather than looking at limitations, look at unlimited possibilities. Consciously direct yourself in that manner and you will do very well during this time period.

Reminder: The Universe is abundant. There is no limit to Creation, no end date, if you will, on the creative process. It is an eternal ever present magnificent event, just watching Creation unfold.

So put your thinking cap on and make it a size larger, and then a size larger, and then a size larger, and have fun with it because this is a timeframe where new concepts in financing, new concepts in government, that sort of thing, very large scale thinking, can happen and it would be change for the good.

So another way to think of it is to rather than showing separation, it is a time to show unification, integration, to thinking in all inclusive terms and what a wonderful world we can co-create when doing so.

As always, thank you and my love to you,

Djwhal Khul
