And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

This is a very important milestone in terms of the Mayan calendar as we have Venus entering Pisces on Friday the 13<sup>th</sup>, a very interesting timing and very interesting effects.

The Venus energy of the feminine power is very significant here. We have also then Pisces which is also very watery and also very psychic opening. So I am going to say women's intuition will be pretty on target. Men with strong intuitive powers, also very on target.

The healing aspects, kind of the softer more nurturing kind of Self is more likely to create self-healing so there is quite a lot of kind of Motherly but also very intuitive energy available.

My caution with some of the other positions of Planets and other cosmic influences, basically, would be stay centered and grounded, focus on self-love, focus on improving your relationships of all kinds, and while you want to be putting energy into your focus for the year, maybe, prosperity and what not, you also want to keep the thinking rather grounded.

You can be grand, just not grandiose. In other words not kind of so much so that you think maybe it's best to gamble every penny you have and take a big risk, that sort of thing.

So watch out for thinking too far astray. Just keep double checking and making sure it is a very grounded and sound decision before you move on it.

So Venus in Pisces evokes feminine psychic powers and also very strong healing and intuitive energies. I hope you enjoy the time period very much.

As always, thank you and my love to you,

Djwhal Khul
