(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We're going to be seeing some interesting things here this year which I've dubbed "The Year of Revelations and Transparency".

So what I want to talk about right now is privacy. You're going to be seeing a shift in privacy or privacy issues and for the most part, of course, privacy is an illusion to a great degree.

While one may feel they can conceal things or hide things, this year, that gets flushed out. So what you might be seeing is by nature people who normally are keeping their cards close to their chest so to speak are suddenly now voluntarily showing at least one card, if not two, three or the whole hand.

So you're going to see private people being less private and oftentimes the exact reverse. Those who normally are very open book, starting to retract a bit and use that energy. There will also be a tendency to sort of cocoon or go into hermit mode a little bit while contemplating the next step.

So there will be that sort of extrovert, introvert, extrovert, introvert kind of pattern happening with most of the Lightworkers. So if you are wondering "Well I am always so outgoing why do I feel like staying home and not talking to anyone, or not posting tweets, or whatever." So you're going to find a natural shift and all of it dealing with the transparency and the revelations that are coming out.

Keep in mind privacy is an illusion. It is never really there and as everyone is becoming more psychic, which is a natural occurrence, more telepathic and more psychic, your secrets really are not so secret anyway. So might as well embrace the truth within your own self and then feel confident that's it's all right to be yourself.

Alright Dear Ones. As always, thank you and my love to you.
