(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Certainly have been a lot of internet challenges and smart phone challenges, satellite, anything controlled by satellite, a lot of interference. And it equates to the same in the astral field or the aura and now we're going to be having Venus joining Mars in Libra.

The effect that I'm seeing there again is that kind of tempering or balancing act, kind of bringing justice between masculine and feminine, war and peace but still we have what I call a pressure cooker effect and sometimes even though Libra can have that lovely desire for beauty and balance, it can also be a little wishy washy or be indecisive in effect.

So again, kind of the same sense of floating. As much as you can, get a sense that you're sort of either on water or floating in the air like a feather dancing just waiting to see where the wind will go next with you energetically and just sort of take a break from the pressures of life as much as you can. That will help quite a bit.

Alright Dear Ones. Thank you and my love to you.
