Djwhal Khul here. Tashi Delek.

Alright. Well, yes it is Thanksgiving and a holiday, a big holiday in the U.S.A, but what I'm looking at of course are planetary configurations and we have always at this time of year the Sun entering Sagittarius which is actually kind of perfect for grand feasts and that sort of thing. Generous hearts but more intriguing to me is this Neptune Direct in psychic Pisces.

So I want to talk about the Neptune Direct effects. It is expanding psychic awareness and a sense of interconnectedness around the planet. So one of the side effects of that is people who already *feel* disconnected, don't think they are part of something bigger, can't feel spirit, they can get even more negative. So be on the lookout for the disconnected feeling, completely cut off or maybe

even having fits of rage over it. So that theme has been running for a while within Humanity but it will be even higher during this time period. So caution please.

The Moon is also in psy Pi, psychic Pisces, it can double the effect. So you might want to watch the Moon cycles as they change every two or three days. And a Full Moon especially, also any Full Moon, is also a time and a New Moon because it is completely dark.

So keep watching for cycles and cross-quarter days and all kinds of things where the energy sort of peaks and just say

"I choose protection",
"I choose safety".

Work with affirmations and declarations and they will help.

Alright Dear Ones. Thank you and my love to you.
