(Channeling begins)

Djwhal Khul here. Tashi Delek.

We are going to begin with a golden white light please coming in through the Third Eye Center and flowing down through the body, really a river of golden white light. And then on the Crown Chakra, visualize please a very large diamond, a beautiful round cut diamond with the point coming down into that Third Eye.

So the golden white light is flowing in through the Third Eye. This is to sharpen the telepathic abilities and the intuitive abilities. That beautiful diamond, a white diamond, round cut, somewhat spinning, probably slowly in most of you, perhaps a little more rapidly in others, while it is catching the Light, the Light of Source, which would be a beautiful pure white color coming in through the Crown and adding to this flow, mixing with the golden white color.

This is a very potent time. Leap Day is classically one in which Feminine Power can be harnessed and utilized to further the creative energies. So if you are ready to give birth to something new, you're ready to create yourself in some way, as an available light worker, then Leap Day is good for it and this particular exercise in general as well: using the diamond energy on the Crown, the golden white coming through the Third Eye.

We are going to send now the energy out ahead of you into the Future just a bit. What you are doing here is practicing your own intuitive and telepathic abilities to project ahead into your own future and you can just pick a date. It might be within this year or within two years or five years, or whatever it is. Pick a point in time and then bring it back to this present moment. Hold that vision. And begin to incorporate the emotional energies. It might be that you are very calm, you're very happy, or you have a busy schedule that is balanced, whatever the emotional energy is that goes with that future vision, begin to encode it into your cellular structure now. Good.

And you can keep repeating that particular part of the exercise where you go to some future point and then bring back the emotions into the present moment.

As always, thank you and my love to you.
