And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to begin with a violet flame coming up from the earth, engulfing your entire body. Somewhat energizing, a little bit of a rushing sensation with the violet fire coming upward and certainly a transmuting effect as that beautiful violet color can certainly transmute emotions, in particular, it can transmute thinking patterns and much more. So I encourage a lot of use of the violet flame during this time period of rapid change.

My comments for this particular week are "Let Not Others Fool You". In other words, you are going to be seeing a heightened effect of smoke and mirrors and it is important to see clearly through the smoke and mirrors or see maybe even well beyond it. You can practice your third eye exercises where you are ever so gently stimulating the highest point of the third eye. That is where the forehead meets the hairline, right in the center of the forehead there. That is your future aspect of your third eye. I would just say barely rest your fingertip on it for a moment to activate it. This is not something you want to tap or smack or otherwise over stimulate.

You could also work with the present moment which is in the exact center of the forehead and there is actually a niche in the cranials there and it forms somewhat of a Celtic cross. That is your present moment third eye.

Then there is the classic brow point, right between the eyes at the top of the nose, it is the past section of the third eye. So depending upon where you want to go energetically, you use that part of the third eye.

Now I would suggest future third eye looking forward in time. And then from there, you might look all the way forward to a state of World Peace. Then from there you can take a look at what occurred before that time: what occurred maybe a week before, a year before, and then keep kind of walking backward in time with your futuristic third eye to look at the chain of events. And what you will find there, is there was Let Not Others Fool You.

In other words, Humanity, at some point, opens their eyes, opens their ears, opens their hearts and really notices what is going on and can see clearly. We are on a precipice right now where you have the opportunity to begin to very clearly see. And there will be, like I said, smoke and mirrors that try to mask over the truth a little bit longer here right before Pluto goes direct. And that date is November 26 again, a very momentous astrology occasion. We will have a tele-seminar on that day, which will eventually be put on our tele-seminar page.

The next [tele-seminar] that we do have, is already posted and that one is about Clearing Mind Control. That occurs on November 1 and you can again you can go to the [website](#) and look at tele-seminars. Take a look at the more elaborate description that I have provided there. It is the day after Halloween, and also some other strategic things happening in that time frame.

So in the meantime, for this week the exercise again is see clearly, hear clearly, Don't Let Others Fool You, and that includes media, Internet websites, etc. It is a time to be extremely discerning. Again that upper aspect of the third eye, that is your future component, you can go forward in time, and then walk back a little step at a time, just like you are walking backwards and at some point you see clearly the truth there. So it is the best way to kind of get ahead of all of the spin and all of the stuff that is going on now that can be quite confusing.

The other secret of course is don't hook into your fear. Stay in a state of Love, stay in a state of Gratitude, count your blessings numerous times a day, and that will also help you see more clearly.

Alright dear ones. That is my Spirituality Article Information for this week. I hope you enjoy it and as always thank you and my love to you.
