Our topic today for Djwhal Khul’s Spirituality Article is Water Blessing. It ties in with an event that is being held over Summer Solstice 2009, so June 19 – 21, there is a global movement to charge water at a love frequency. The particular frequency I believe for people who are wanting that is 528 Hertz.

So you can certainly look that up on the Internet if you want more information about it. I think there are quite a few people joining in that movement.

What I am doing today is taking some water that does have healing frequencies in it and then I’m going to add the blessing.

Now one of the things that we have put in it is one of DK’s essences. It is called the “12 Rays of Creation”. It is made by Anna Rita at [www.SonoranLight.com](http://www.SonoranLight.com) and that is Sonoran Light like the desert in Sonora, or the Sonoran desert in Arizona. That is already in the water. That is the 12 Rays Attunement: the full 12 Rays, all of them, positive aspect only, that is DK’s signature teaching, at least through my particular vehicle.

Now this one was also added in there: it is called “Courage in Adversity”. It is for core fear removal and again Sonoran Light Essences and she does custom blends as well.

Then we have also added praseolite. Someone has sent me praseolite earrings. The vibration of those together in this particular water and then we are going to add DK's blessing. So you can either repeat his words or just play the channeling because the vibration goes into the water as well.

So here we go with the channeled portion of today's Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to begin with a golden white light coming in through the crown chakra. We always work with that Christed energy coming in quite strongly and then we are going to put the vibration into the water.

Now the vibrational blessing, let's see if we can get this here, raising the Hertz frequency to the vibration of Divine Love. This will bring that vibrational current into the body quite strongly then it will pass through the hands and into the water. Now you notice that, hopefully, my hands are in a particular configuration here. It does not have to be that for you. You might want, I would say, to have some fingertips touching. Some of you would prefer something like this, which would be more like Reiki, going back and forth through the water which will also charge it nicely.

Then you can simply just say "My water is blessed." "I am blessed." "All things in Creation are *bless-ed*."

Now this is just a very simple way to charge water. I would recommend that you do that with food and any number of things but especially something you are going to ingest or something that you are going to put on your skin, because your skin will ingest whatever you put on it, except for petroleum, it can't drink petroleum. That's probably a good thing but it is also not good to put it on your skin because it suffocates the skin. So petroleum, petrolatum, mineral oil, please avoid those products topically.

Now we are going to work with that 528 Hertz vibration and the power of the Solstice, particularly the Summer Solstice, the Sun charging life-giving living water. Good.

Just feel the energy. It also changes the taste of the water. Alright.

Dear ones, that has been your information for this week. Remember that you don't have to stop with water vibration. You can literally bring anything that has some water molecule content to it up to a higher vibration and it would be good to do so.

Thank you and my love to you,

Djwhal Khul
