(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to work with the violet transmuting flame. The idea is to Transmute Failure, Create Success. So failure energy literally can be placed within the violet flame and turned into a successful energy. Sometimes it is said that failure paves the way for success because you learn what not to do when you learn from your mistakes.

But literally the quicker path is to take any failure, disappointment, even just negative energy, put it into the violet transmuting flame and literally instantaneously it changes into success, maybe power energy, love, whatever energy you choose to transmute it to. So work with this energy.

I have been on Twitter, that is "[DKupdate](#)" on Twitter, talking about the activities that I do as an Ascended Master. One of which is the construction of a Merkabah vehicle, which is a violet color, and we take rides literally on the ethers while you are asleep or what we sometimes call Night School on the Inner Planes. That violet Merkabah vehicle will journey to Shamballa, and goes to some other sacred places Inner Earth as well as away from the Earth, such as the Pleiades and Sirius.

You can just put your request on the Inner Planes and say "Djwhal, I want a Merkabah [emphasis on first syllable] ride or Merkabah [emphasis on second syllable] ride" and then we'll go ahead and do that. Just sign in intentionally and you will be on the next ride.

Violet transmuting flame - let it engulf your entire body and the entire auric field. Then let it stretch a little bit beyond the boundaries of your energy field, maybe an extra foot or two around your aura, so that anything about to approach your auric field is also transmuted instantly into success.

That is our information Spirituality Article for this week. As always, thank you and my love to you,

Djwhal Khul
