(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. The vibratory patterns right now are very, very interesting. We are working with January having been a strenuous month and then beginning of February a little bit challenging as well. Things not going as smoothly as you would think or the extra troubleshooting needed.

On the VIP call we are working with "[Skipping over Stuckness](#)" and exercises for that.

You are going to start to feel the energies starting to building in relationship to the waning of the Full Moon that was a perigee moon, closest to the Earth, and then building up towards a New Moon which marks the New Year of the Tiger in the Eastern realms.

So the energy is getting very, very strong. What I would say here is that you want to get an image that anything that was previously difficult or reached some point where you felt stuck that you want to liquefy it, just melt it away or get it flowing essentially. So it is attitude and action together in that direction.

The intention to have everything flow smoothly and then if a little glitch does occur, that you then exercise again intention to get it flowing again. And then I might say you would probably also add a little bit of patience as well as you are going to find that sometimes you just have to surrender to timing.

Alright dear ones. As always, thank you and my love to you,

Djwhal Khul
