(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Just a note here, if this is easier to access by telephone, the number is 916-233-0630 Box 163. It is also posted on the website. On the main website under [Spirituality Articles](#), there is quite an archive there of free articles for you.

Now today's energy is a very interesting one. We are working with some very powerful vibrations mostly in the Cosmic Rays. My current work with Humanity is specifically to help you shift energetically, psychologically, emotionally, mentally at all levels, in order to resonate with the current frequencies. So literally, Creation is changing and to be able to adapt to the changes not only ensures survival, that it also can be a means by which you can thrive during very rapid changes.

Now these changes come from the Milky Way and beyond. So there is a sort of reverberating ping pong effect. If we look at the way the Earth tilts, so the axis is in place but the tilt for the Equator changes seasonally. Then we look, all things in Creation do exactly the same thing.

Moons are designed as balancing agents around planets. So when a planet needs more than one moon, well even one moon but more than one moon, is a sign that there is something there that requires more stabilizing. So that tells you something about your own local galaxy.

Now when we look at the Milky Way, it too has an equator, or a center point, and you have been sort of bumping above and below that equator for quite some time now, many years. The vibrations I would say started about 1980, which is when I made a diligent effort through Janet McClure and Lillian Harben, "The Tibetan Foundation", to train as many channels as possible to work with these Divine energies.

If you can channel the flow of the energies then, verbally or not verbally, just be a conduit for Spirit, then you can work with the energies in your body, the tissues, the sub-cellular level, the subatomic particles even in your body, will begin to morph into that which is compatible.

So channeling, or being a conduit for spiritual energy, is something that I would say is wise to create in your own consciousness. Know that you're already Spirit in action, in evolution, in constant growth. You are Eternal and these changes are, of course, all part of a bigger picture.

So resonating with the vibration, having the knowledge of what is going on so it's not stimulating fear or survival issues in your consciousness. These are all very important. So our work, my work through this channel and my work through other channels, is all sort of progressive consciousness to *match* the energies, *synchronize* with them, *harmonize* with them or in some way, *resonate* in such a manner that you are actually achieving enlightenment, regardless of what is going on in the world.

Alright. This has been my Spirituality Article for this week. I hope you have enjoyed the information. As always, thank you and my love to you,

Djwhal Khul
