(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We're going to begin with the energies presenting themselves, Mercury moving into Capricorn. The call here, if you will, is to work with Building Positive Thought Consciousness. The communications in general again, Positive Thought Consciousness.

We're having some interesting influences coming up with Pluto. We have really a strenuous week and then another configuration on the 22nd of January that starts a few months of financial reform, and a few other things here.

So the thought consciousness needs to be pointed in a constructive way, making affirmations like "I choose peace", "I communicate lovingly", "I envision World peace". Work with the constructive thought consciousness.

When the negative thoughts arise or you hear them externally, you can immediately pluck them out of the consciousness, just toss them out like you can brush a leaf off of your shoulder, a Fall leaf or something, just brush it away and then replace it with Love, Peace, Joy or anything positive that you are choosing.

So, it's very important on a global scale as well to really focus on this building positive thoughts.

As always, thank you and my love to you,

Djwhal Khul
