(Channeling begins)

Djwhal Khul here. Tashi delek.

A very warm Tibetan greeting where my Soul greets your Soul, as we come into Tibetan New Year. Now, different countries do the astrology differently, so some celebrated this one new moon ago, but I would consider this the appropriate time for this esoteric astrology.

We enter into the Year of the Rabbit and sometimes... well, there are different elements and different masculine or feminine energy so... female, iron, rabbit. It's a very, very lucky year. Since it's also very near the end of the cycles of the Mayan calendar it's going to be interesting to watch the way in which it plays out.

Still expecting quite a bit of turmoil on a global level. People seeking freedom, and willing to go through whatever it takes to get to that freedom. A lot of financial troubles which I talk about in the [Quarterly Forecast](#) that we do. Those are available on the web site if you want detailed day by day information.

Basically, we are revisiting the same astrological configuration as the Great Depression era, and as if that were not enough, the kind of mid-1960s rebellion against war, authority, etc., establishment. So it could be a very exciting year.

For those of you who turn sixty during this cycle, you are coming full circle, and you have exceptional luck especially. So there's a lot of baby boomers in that time frame that can do exceptionally well.

I'd say be willing to turn on a dime, add a component to your life or to your business, change a few habits, be flexible with the time period and try to get ahead of the technological curve and the eco-curve, that you would be very wise to do so and very lucky.

So, listening to the intuition, very important during this time period. Thus we have established quite a few exercises to develop the Third Eye, the intuition, the telepathic abilities and the ability to commune with your own Higher Self and with other great Spirits that are assisting you.

Alright. So, good luck in the Year of the Rabbit. Create your own good luck, your own good fortune and enjoy.

As always, thank you and my love to you,

Djwhal Khul
