(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright then. Vibrantly let us invoke the golden white healing color. The golden white is a Universal Christed light and a local Christed light. And let us bring that through the body as vibrantly as possible.

Now you are going to hear me start talking more and more about the value of feeling and experiencing high energy and how you set your intent. So even if you are working with say Violet Flame, you want to make sure that it feels vibrant, tingly, something that really excites the cellular level. So the more that you can feel these higher vibrations, the better.

Alright. Let's work with the next one which is a magenta color, a kind of pink red purple, vibrant magenta. Bring that through the body. Really feel the energy. It's a very, very feminine kind of energy, very strong in nature and very good for many things but particularly the process of enlightenment.

Then our next color is going to be a very vibrant blue, almost like lightning, a kind of blue white vibrant color. You'll just feel that come shooting through the body perhaps in a thunderbolt or lightning bolt kind of fashion. That's always a good way to work with the energies of high frequency. Good.

Alright then. So vibrancy, feeling vibrant colors, vibrant energies. Keep training your body to do so as it will always assist in the process of the spiritual path.

As always, thank you and my love to you,

Djwhal Khul
