(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Essentially 2012 is the Year for Spirituality, Paranormal And Quantum Leaps. It is a leap year but more cosmically speaking a lot of quantum leaps, particularly so in spiritual advancements.

So those of you enlightened to any degree at this point will gain by leaps and bounds and those who are just seeking enlightenment will also move very quickly.

I want to address the paranormal for a moment because we're currently under the influence of a very psychic moon and the Moon is in the sign of Pisces. It adds more psychic activity. So the dreams get very rich and full. And even two nights ago, one or two nights ago, dreams getting very elaborate, lengthy, detailed, remembering more than you usually do with a dream or falling asleep and dreaming it again and then falling asleep and dreaming it again.

So paranormal activity is naturally heightened at this time because of where we are going in the Universe. More information in the [2012 First Quarter Forecast](#) if you want kind of almost day by day rendition of what's coming up and what is likely.

Notably, we have just finished a rather strenuous time period ending on December 28. Then we have a time period here with a lot of insight, literally to resolve problems for good not just to put a band-aid on it or hide the problem under the rug and wait until it surfaces again. So use this time period for that maximum effect.

And then paranormal. I want to address that a bit. Most people are still frightened of it. And this, I hope, will become seen in a good way, a way of the light, like angels appearing, or pets that have crossed onto the other side or perhaps beloved relatives visiting, that sort of thing as seen as a positive.

Not fond of the dark movies and television and what not and books that show evil or scary negative energies of paranormal. We really need to work towards getting this into the positive realm so that Humanity is not afraid of it because it *is* happening to everyone, especially small children, animal companions, and those with stronger psychic tendencies than most.

Alright. So embrace 2012. Embrace paranormal as the new normal and EnJoy!

As always, thank you and my love to you,

Djwhal Khul
