(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright then. We have for our first New Moon of the calendar year marking Chinese New Year, the year of the Dragon. The color is black, the element is water and of course Dragon is fire, but we're technically still working with the wood element so it makes 2012 very interesting in terms of those cycles.

We are going to do a [full Teleseminar](#) on Monday 23 to really maximize the use of this particular energy, if you are interested in that.

And in the meantime I'll say that one of the things that is happening is that psychic activity is increasing very, very rapidly as a matter of fact, so I would be *cautious* regarding thoughts, projections you might have towards others, practice kindness within yourself and toward all others.

It is very, very important because there is really a kind of psychic warfare. And as we get to, of course the Sun will enter Aquarius, as we get to January 25, we have the Moon moving into Pisces, adding more psychic power there. And that Moon generally stays in one sign for 2 or 3 days.

So we're looking at some very interesting things. Let me see how I can... I am just surveying the group of world servers.

I'd say the thing to focus on most would be slow down, take your time, eliminate unnecessary tasks or delay them until later unless it's going to cause harm to delay them. But basically the message is slow down: going too fast causes accidents or ill health. The body just won't accommodate it right now.

So Enjoy the New Year. Have fun with your spiritual resolutions.

And as always, thank you and my love to you,

Djwhal Khul
