And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Well, we have Saturn having gone direct, we have Venus having gone direct and we have Mercury in Leo. I thought this might be a time to talk about Divine Love, or Love at more Cosmic levels.

This is a time when we might be seeing sort of self-love and self-loathing kind of moving back and forth, that sort of thing. Might also see such a deep love for an ideal that nothing else is appreciated and that sort of thing.

So we get out of the personal level of Love or our attachment to what it's supposed to be like and we move into those more Divine levels. It's just really a *peaceful bliss*.

One moment here, the channel has got a little tickle in the nose.

And what I call As Is Acceptance.

So work with your own consciousness to sort of transcend what the personality wants, what the subconscious agenda is, living what you, as a soul belief that you want and how it should look. And when you just sort of keep transcending it consciously, invoke Divine Love. "Thy Will be Done" And keep working with it. It will bring you into a different kind of zone or energy field where you are quite comfortable with everything.

The other thing I would say for this particular week is to deeply appreciate yourself for how far you have come. All the learning that you've done, the studying, your desire to be more spiritual or whatever it is. Really deeply appreciate yourself.

And then ask the subconscious to show you how Divine Love heals. And ask it to do so and that you're so grateful and that you would like to have fun with this. Be specific about the emotions that you want to come with it.

Really keep engaging the subconscious as your friend that is going to help you with certain goals because the subconscious in the collective of Humanity is very rapidly transforming.

As always, thank you and my love to you,

Djwhal Khul
