(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. On this short teaching here, I want to talk about Pluto and You. If you want the in-depth information, we just did a full Tele-seminar called "[Pluto Retro in Capricorn](#)". That would give you quite a bit more in-depth and how-to work with it from survival mechanisms, spiritual growth, really, really what to expect and how to handle it.

At this particular retrograde, it's about 5 months, however it really flushes out deep within the psyche and the subconscious a variety of things. So, it's already started. There is a surfacing of

negativity and then the choice is either “I want to continue that” or “I want to transform that. I want to change it.”

So there is an opportunity for a kind of big death of the old and a rebirth of the new and how you set your intent personally will matter greatly.

Now during this particular week that we’re talking about that Pluto goes retrograde on April 12, then we have Venus moving into Taurus on April 15.

Of course we’re at tax time but I also foresee some big financial change. So I’d say, tighten the belts a little bit and be prepared for some maybe drop in the stock market or something like that, sometime within the next, probably a two month time period. Certainly before summer solstice.

So just watch carefully and pay attention to your sense of yum or yuk and your sense of intuition as spirit will guide you to safety if that is You making the request.

Alright Dear Ones. As always, thank you and my love to you.
