(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. This is really a time period here where we're choosing history repeating itself or we're choosing a new reality.

So my recommendation here is that it will feel as though you're flashing back to different points in time, different places in history where perhaps there's been financial trouble or a lot of rebellion or the seeking of freedom on a large scale.

So we're flashing back most certainly and then the objective would be spiral forward or spiral upward as you might imagine it, creating a higher rung of that energy or creating a new way of experiencing it.

You can also use your conscious creative mind to direct the energies. For example, rather than a great depression repeating itself, what we're going to see is reallocation of spending so it's done wisely in a resourceful manner and creates prosperity.

Or maybe rather than rebels taking over things, what we want to see then is, ... or invasion that kind of thing that happens over and over within humanity, then we want to see instead a spiral forward or a spiral upward of peaceful co-existence and cooperation amongst all members of humanity for the good of all.

So consciously direct your energy and then in your own personal life, you may also be flashing back and remembering certain points of your life and perhaps ones that weren't so pleasant at the time, then when that happens kind of spontaneously go ahead and spiral yourself forward into what you *do* want: your ideal life or your preferred reality.

So it's flashback, spiral forward and have fun.

As always, thank you and my love to you.

Djwhal Khul
