(Channeling begins)

Djwhal Khul here.

Let's get the voice box a little strengthened up here on the channel. So one moment please. There we go. Good.

Alright. One of the most important events is upon us here and that would be Dharma Day on July 22 with a Full Moon and the Sun entering Leo. In the Buddhist tradition that's sort of Buddha's first teaching; after enlightenment, it is a celebration of life's purpose and living life in a good way.

Our [VIPs](#) on that program that get the extra teachings every month are going to have a special call for that.

And then not to be ignored would be Mercury going direct in the sign of Cancer on Saturday July 20 happening at 11:22 am PT. That is a Master number. I think it's going to be interesting to see what happens with communication beyond that point although I'd say give it another week, or even a week and a half in this case, before we get to a true point of clarity with communications.

So there may still be some of that not feeling like you're being heard, or you're being heard but not understood. Perhaps if it's not necessary, just drop it and come back to the conversation later.

Because we're also under the influence of a cosmic muddle that makes it difficult for the cognitive functions in the brain to work. So a reasoning, say step 1, step 2, and your partner normally says step 3, there are going to be glitches in the process or just a rationale "Well if I do this first, then everything else will be easier". Probably the mind isn't quite kicking in yet. It might be just now starting to kick in intermittently but it won't be really functioning well for a little while yet so let me see what else we have.

That's why I think by July 26 things should be much better for most of you that tune into these teachings, so hang in there in the meantime.

As always, thank you and my love to you.
