And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. I want to work with a pink color, it's kind of a pale pink, pale rose pink, maybe rose quartz color for some of you. And work with the flow of gratitude. We really kind of want to see a pink color gushing from the Heart Chakra, just sort of spreading that gratitude and that Divine Love energy all around the planet to every part of Creation really. So it can go much further than just the planetary consciousness.

And then I want to add violet flame all around the body, the all-consuming violet flame, that would be a very pale color of violet and it would be Fire element of course.

That is to help transmute the past. We're going to have Mercury moving into Sagittarius and we also have a New Moon, which brings new beginnings during this week so there are opportunities to patch up relationships.

If you stay in that Love vibration just sort of gushing gratitude out of the Heart Chakra and transmuting any other mixed emotions either coming out of your own consciousness or from the consciousness of others.

You might go back and review the article on "[Joygiveness](#)" as well. That would be helpful during this time period.

As always, thank you and my love to you.

Djwhal Khul
