(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. 2014 what an interesting year! I always give a theme for the year in my quarterly forecast which is available "[2014 1st Quarter Forecast](#)". The term for 2014 I've put in "Revelations and Transparency". It's going to be very interesting in terms of how that plays out and especially so in large institutions, financial organizations, maybe even military around the globe. Just be very, very interesting.

Now on a *personal* level, you can make some very good realizations or revelations about your true spiritual nature and you can also get to levels of awareness that you realize everything in Creation is transparent. There is really no place to run or to hide. It's all transparent.

Again on more global levels even that might show up as e-mails or social media or something being too transparent. It can even come up in the form of hacking or harnessing personal data. So take the necessary steps to keep yourself protected as much as you can while realizing essentially information hasn't been private for quite a long time. But in this year we surface with Revelations and Transparency.

Alright Dear Ones. As always, thank you and my love to you.
