(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. I'll take a moment here to work my way a little deeper into the channeled state. Those of you who practice channeling know you sometimes get that instant deep connection and other times it sort of sinks in more slowly and we're having that kind of a day with a little more sinking in slowly and building the power.

We're in a pretty strong Mercury retrograde which is challenging communications, however I think they're going to start feeling clearer even though it won't go direct until February 11. It should feel a little clearer right around the 1st of February for two or three days and then Venus just moved into psychic Pisces, or what I call PsyPi. That's creating some very interesting things. A lot of energy work going on on the inner planes.

But mostly what I want to talk about this week is accomplishment because the energies are very high for productive work: getting organized for taxes, cleaning out closets, maybe taking donations to the humane society or whatever it is that you're going to do.

So it's a high accomplishment time frame and I'm going to say go with where your interests are. So if you're really interested in cleaning out the closet, do that, if you're really interested in maybe sending some dishes to the humane society or whatever or some old rugs and blankets and things, do that. Whatever sort of just seems natural is what you're going to have that highest energy for and the most productivity will occur.

Alright Dear Ones. As always, thank you and my love to you.
