And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Now we're going to work with a vibrant pink color, sort of a pink flame coming up, very, very bright, vigorous, cleansing, cheerful, you know lots of energy there. And then I want to add a gold color to it, we're going to mix 12th Ray gold in with it for a variety of healing values. The gold light is the strongest healing color and you might even just see yourself wearing a golden glow in the aura. Perhaps also a gold foundation. Work with the color gold and just get creative with it. Gold flames, gold whatever. So 12th Ray gold energy for strong healing powers.

Moment here. There's a cat helping.

Alright. So we have the Spring Equinox, we have a very packed day. There's a lot going on. That's the next big hurdle coming up so to speak. Lots of energies are coming to the surface now and essentially what they mirror back is "What should I be getting on with?" In other words, "Have I missed the boat?" These by the way are misconceptions cause you've never missed the boat but essentially if you're procrastinating about something, especially service related, you're going to be getting nudged now to move along with your service path.

ROQ would you like to come over here? Because that's easier if you come over here. How about we do that? Here we go.

Alright. So for others not working with their conscious awareness, it's going to seem like they're just violently angry suddenly because there's something nudging at them, like they've missed the boat or they haven't quite fulfilled something that they promised at a Higher Self level or it will mirror more like "I just don't like my life right now and I'm really mad about everything."

So essentially, what you want to do is use the pink fire and the gold color, especially the gold fire if you're burning away things or clearing away things and then feel a sense that you're climbing a rope and at the top of the rope is the soul's purpose or the soul's design or God's purpose for you or however you feel it. But you want to see yourself getting to the top and then somehow making it up to that next level. That level where all is good and all is in the right relationship with Creation.

Alright everyone. As always, thank you and my love to you.
