(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Well there are quite a few things that are coming up here that are significant and you’re probably feeling the heavier energies happening already. Wanting a little more nap time or at least downtime of some sort, and I do recommend that. Actually just going horizontal and either sleeping or resting your eyes will help, that you’re just still and sort of flat against the earth. And even if you can only do that for 5 minutes or something it will be helpful so go ahead and take frequent breaks if need be. It’s really almost the same as the cure for motion sickness. There is so much motion going on that you need that flat level toward the earth.

Alright, now. Ramadan begins. We have a Summer Solstice which is very potent on Father's Day in the USA. That's also the culmination of those Uranus/Pluto Squares for lightworkers so it's really almost kind of a 'throw your graduation cap in the air' kind of time period there over the weekend and then, then we start getting ready for Chiron going retrograde.

So I do want to talk about that a little bit because it's a big thing to get ready for. You want to kind of prepare ahead of time. It will go retrograde in what I call Psy Pi or Psychic Pisces on June 24 and then it will go direct November 28. So we got a good five months there of really an elevated esoteric experience with Chiron.

Now it's classically called 'the wounded healer'. In other words, through your own wounds or downfalls or mishaps you figure out how to heal yourself and maybe if you have advice that heals others or suddenly healing power comes to the surface and flows through you. So it does point out that even if you yourself are not all that well, you do have healing power and value to others. Or maybe your dog gets all the healing energy that you pump out with unconditional love or you share your story about an accident you were in and that's healing to other people.

So Chiron, 'the wounded healer', really I refer to it as 'the healed healer' but here it's going to be retrograde, apparently moving backward in the Heavens. It affects all the Saturn and Uranus things that are going on so it affects lessons in life, unexpected things or surprises, occurrences that you weren't counting on and then the Psychic Pisces brings in this very, very potent kind of third eye awakening which you can use for deeper insight.

So the esoteric view that Chiron has is that everything can be healed and every experience can be used as a healing experience and that would be how I would suggest that you view that retrograde time period.

Again the dates are, well really it's starting ahead of time. Anytime something is getting ready, it's like you slow down your walk to a stop and then you turn around and go the other way or you start stepping backwards, there is a slowing down before a retrograde. And then it takes a while when it goes direct to really kind of speed up and move into full motion. So think of it like that. We are kind of already in it causing some of the tiredness. So again, June 24 to November 28.

Really examine what you *do* want to heal and how you might want to turn some experiences you've had into healings.

Alright Dear Ones. As always, thank you and my love to you.
