(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. This week I think we have such a *potent* Full Moon and it's Full Moon in the psychic sign of Pisces. It's actually full on August 29. However there are many times that this teaching will apply as well. So essentially it's about the dream state, whether it be your conscious dreams for yourself or the ones that are shown by the unconscious during your sleep state. And this is a time when dreams come true.

This particular Full Moon, the veils part and it is actually stronger than Halloween this year in terms of astral activity and that sort of thing. So I'm going to say be very conscious about your dreams

and be very conscious about your programming and what's running in the background like sabotage thoughts, or whatever it happens to be, victim consciousness. Really clear the decks and focus on the dreams that you really do want to come true. *Really* keep your focus there. I think you'll get some fabulous results from it.

All right let me see how long that window goes. The Moon will shift into Aries, 1:33 a.m. on August 31 and that's in Pacific or Los Angeles time. So you've got some time to play with it and you can always go back or forward in time as needed to practice things.

Alright Dear Ones. As always, thank you and my love to you.

Djwhal Khul
