(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Because the mind chatter is very busy focused on terrorists, terrorism, religious wars and financial troubles, I'm going to address something I think can give you a way of working with the worldly events.

We also have what I would call a lot of cosmic dust or debris, much like when you look through a ray of sunshine you see a lot of dust flying around in the room. It is like that energetically and physically in the cosmos and those particles actually cause more agitation and also an underlying insecurity or a sense of safety being threatened.

So that is contributing somewhat to what is going on and then the mechanics of terrorism from the personality perspective I think are important to understand because it's not just about programming, like "This is the enemy so we have to do these things," and then the mind accepts the programming. It also deals with the core character of the personality which involves some more noteworthy things like duty, dedication, devotion, loyalty, willing to die for a cause. Those things I would consider admirable aspects of a personality and then of course they are either used wisely or used to harm others.

So one of the things you can do as a Light worker is focus in on the positive attributes and bring into that even more light or more enlightenment or more understanding and specifically the will to do good, being a comprehensive or all inclusive will to do good therefore not to ever harm another. So that same passion, if you will, could be used to educate others about a certain faith or whatever it might be or to inspire people to pray more often and so forth. So the energy can be redirected.

And just a final note about fear because I always say two things about fear. One: it is the absence of love. So when you're in a state of being afraid, scared, fear, terrorized, you are lacking the energy of love. And the other thing that I always remind you about fear is either *you* control it or it *will* control you. So decide that your I AM presence is going to be the one directing this play.

Alright Dear Ones. As always, thank you and my love to you.
