(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We're still kind of on the tail end of that 'Deep Crevice' that I had predicted. So either we've got it shortened quite a bit or smoothed it over or bridged the gap or everyone has gone through it. We are pre-recording these messages for the holidays so it's still kind of an unknown factor here.

What I can talk about in this Spirituality Article is information for the New Year 2016. We'll eventually be going into the Chinese New Year of the Monkey and it's a male monkey and the energy there can be very interesting.

But essentially what I see is constraints and restrictions being imposed. It's probably increases in security, maybe people just putting a better lock on their home door or putting locking gas caps on their vehicles but I see essentially more tightening down of things, more control, maybe even less free movement in some places. So that might be before you enter a building there's more security first and that sort of thing.

On a personal level from a spiritual perspective, it can be a time of very accelerated spiritual growth and certainly I'll always remind you to use your free will choice to say what you **do** want, over and over again; positive affirmations please.

Alright Dear Ones. Thank you and my love to you.

Djwhal Khul
