(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We're going to work with a golden white color. I want to see the golden white sort of coming up through the body, really purifying things, especially so the Solar Plexus. Now, one of our next calls is going to be "[Transcending Darkness](#)", one of our Tele-Seminars on February 23, which will be really moving the energy into the Light and working personally and globally.

I apologize for the barking dog. A relative just stopped by so that should stop soon.

Let's work with a golden white color and note that the three Sacred Moons are early this year. Any time Easter is early then the Christed Moon, Wesak Moon and the Humanity Moon are also early. What really determines is when the Sun is in Taurus and the Moon is Full in Scorpio. That is the true esoteric Wesak so that is when we will celebrate it. And that falls ironically on Earth Day this year, April 22nd.

So between this coming Full Moon which is on February 22 and the next New Moon, which is an eclipse that's on March 8, it's going to be quite a potent time period building up to that. I expect it to flush out a lot of impurities in one way or another. It could be emotional, mental, physical, spiritual, any level really that would affect your body, mind and soul. So welcome these impurities flushing out and being replaced with something pure: white light, golden white light and a variety of healing modalities.

Alright Dear Ones. As always, thank you and my love to you.
