(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Well it's a potent month so far. If you don't yet feel like someone is shaking a glitter ball or something and things are flying everywhere, hopefully you're starting to calm down. If not then your shaking up will occur at some point if it has not already.

So now we have a post two eclipses, now we've got the Fall Equinox. Equinox is always when the brain waves change, spring and fall. It doesn't matter where you live on the planet, something shifts in all of Nature. So this one is really still kind of in a murkiness. Mercury going direct Yes! but not quite yet clear.

So this can add to mental confusion, miscommunications verbally, you know, heard as something else that you didn't actually say. Even a written communication being read too quickly and misinterpreting it. Sometime the exact reverse of what was meant is what is perceived. So double check communications especially if it is upsetting you, before you react to it. Double or even triple check it.

Then we have Venus entering healing Scorpio on the very next day, 9-23. It's going to happen in the early morning, well around 8 o'clock in the morning Los Angeles time.

Venus in the Love aspect, in that healing or death and rebirth or stinging Scorpio, is going to be different for each person depending upon where it is in your chart and how it is affecting but I would say there would be some major transformation around the energy of Love. So Self-Love, of course, is first and foremost but I think I see this one more coming out in relationship patterns so just direct consciously what you *do* want, like more Love and Joy between you and your partner or you and your children or whatever it is.

Alright Dear Ones. As always, thank you and my love to you.
