Djwhal Khul here. Tashi Delek.

Alright. Well, what we have now is sort of this bubbling up to the surface effect, where lots of things that perhaps were desired to remain concealed or hidden in some way are suddenly bubbling up to the surface, at least for a little while, then they might duck back down and bubble up to the surface.

So in terms of personal growth this is a time to examine anything you might have been trying to tuck away or ignore for a while and then just embrace it and handle the details.

When I look at it in terms of institutions, countries and on a much bigger level, it's having a larger impact, more like "You can no longer hide the Truth" or "Now you have to own this reality." So it's going to be a very interesting time period.

Again on a personal level, just say "Gently show me, gently show me, with grace and ease please, what it is that I might embrace and accept or change or what not" and then when we go on a larger global scale it becomes "Show me the Truth. Show me what really is. We sort through the different stories and let me know the Truth."

Alright Dear Ones. As always, thank you and my love to you.
