Djwhal Khul here. Tashi Delek.

Alright. Well this particular week we have Mercury going retrograde. It will do so in Virgo then all the way back into Leo before it goes direct again. There is always about a three week time period of Mercury retrograde, but a week or two on either end of that, so technically 4.5 to 5 weeks or so are a bit of a muddle.

This particular Mercury goes retrograde with several other planets and it is right in between two eclipses at the point when it does go retrograde.

So what I am going to suggest with this one is that you work with mind control. Literally just saying "I have the mental willpower to go through anything. If I think it, it becomes real. I and I alone have complete control over my thoughts and therefore over my actions and my feelings.

So really work with Mercury and mind control as in making sure your own mind is very focused on your highest goals.

Alright Dear Ones, As always, thank you and my love to you.

*Djwhal Khul*
