Djwhal Khul here. Tashi Delek.

Well, we've had an interesting start to the New Year. A lot of truth being revealed, and super moons and blue moons and we've got a very exciting [quarter](#) in general.

But I think for this week what I'd like to focus on, a little bit in advance, is Mercury, the planet of communications and in a more ancient way, a messenger to the Gods, the planet closest to the Sun, the source of light, is going to move into Capricorn on January 10.

That has a kind of bulldozing effect that you can put your mind in gear, put your mind into a focused manner and I think for a lot of lightworkers perhaps is also going to give you a little more kind of mind-over-matter powers. So as *always*, don't focus on the negative.

Focus only on what you DO want because energy follows thought. And with Mercury in Capricorn, energy is going to *rapidly* follow thought. Things like I DO want health, I DO want balance, I CHOOSE balance, I CHOOSE health, I CHOOSE Love, I CHOOSE Joy. And refrain from negatives always but especially so with this influence.

Alright Dear Ones. The other thing to focus upon is what you want 2018 as a year to bring to you. Again, positive statements handwritten, things like "2018 brings me prosperity", "2018 brings me stability", "2018 brings me happiness", etc. Make your long list hand written preferably playing with ink colors and paper colors and EnJoy!

Alright Dear Ones. As always, thank you and my love to you.
