Djwhal Khul here. Tashi Delek.

Alright. This week we have the tail end of our mind over matter time period *and* a Super Blue Moon coming on January 30. So that Super Blue Moon on top of everything that is going on with communications, Mercury as a planet specifically, the Venus energies, the Aquarian energies, is all kind of culminating in this Super Blue Moon, the second Full Moon of January.

What I suggest you do is really work with the water element. Pour a glass of water and it should be a glass not plastic, put your finger tips on the outside edges of the glass and then sing into the water a happy song or a calm song or something holy or even just speak into it like "Joy. Joy. Joy." "Love. Love. Love." "Peace. Peace. Peace."

The water will carry the vibration strongly, more so than normal. It always works but this will be super charged water. If you can, allow the power of the Moon to touch the water. If it is freezing

put it on a windowsill and let it get at least two hours of moonlight or if you are where you can set it outside and let the Moon shine on it all night long, that is even better.

Alright Dear Ones. Oh! Oh! The channel reminded me. And then of course you drink the water. Or if you have a plant that is in trouble you can rescue the plant watering it with that; give it to your animals. You can even sip on it throughout the month until the next Full Moon cycle if you want to.

Alright Dear Ones. As always, thank you and my love to you.
