Djwhal Khul here. Tashi Delek.

As a Tibetan greeting acknowledging soul-to-soul greeting of my Higher happy Self auspicious greets your Higher happy auspicious Self. So it's very like Namaste; it's a holy greeting in Tibetan.

This week we have Valentine's Day, Ash Wednesday, a solar eclipse with a new moon, about two weeks after a lunar blue moon, blood moon eclipse and then we're coming up upon two other important shifts this week. One is the Year of the Earth Dog, Chinese New Year, and then the Sun moving into Psychic Pisces. So another action packed week.

So I want to perhaps kind of blend that together into a focus that's good for the year which would be Love in the Chinese New year of Earth Dog.

Chinese New Year changes every 12 years, it will be dog, and then it is different elements as they rotate through the elements. So Earth Dog actually brings planetary love down to Earth into kind of a loyal pack animal focus. Like humanity is now one tribe or one pack protecting each other and that loyal energy is much more grounded.

So I want to *connect* it with Valentine's Day and the eclipse and a few other things kind of coming into play and talk about the depth of Love that is possible. Starting first with Self Love because you cannot give what you do not have. If you don't really love yourself, you can't give it to others. And that is a wounded aspect of the consciousness that can be healed.

So continuously seek out *more* Self Love and then even *more* Self Love and even more *Cosmic Love* grounded into your own being. And then feel that like a loyalty, or that pack animal, like there is a whole huge consciousness supporting that and bringing it into Earth for you.

Alright Dear Ones. Thank you and my love to you.

*Djwhal Khul*
