Djwhal Khul here. Tashi Delek.

Alright Dear Ones. We have kind of an exciting day. Numbers and colors and vibration have always been a passion of mine. And this is the 2nd month, the 22nd day, in the year 2018. If you add 2018 you get 11, which reduces to a 2. So we really have 2, 22, 2. Now adding all of that up I end up with an 8. 8 is a very powerful number. It is usually associated with power and money and manifestation.

We're doing a formal VIP call for our [special program for VIPs](#) who get the two regular Tele-seminars plus two or three free teachings when they sign up for that program. However, I wanted

to make sure that you had some time as well to really focus in on the number 8 and start tracing it as a symbol of infinity.

And just a simple exercise, actually you can draw one on a piece of paper or you can put it up on a wall and just trace with your eyes. Trace all the way through the figure 8 with your eyes and just keep going and then reverse it at some point and trace back and go through it. It actually balances the brain.

You can also imagine it sideways inside your head. So put the eight on the side as the symbol of infinity and then with your eyes closed and tracing the edges of this 8, like you're just drawing it over and over and over and again reverse the thing. You'll find that it's easier in one direction than it is in the other and that means that's part of the brain that is getting balanced. So power of 8, also the symbol of infinity and also a nice way to balance the brain.

Alright Dear Ones. As always, thank you and my love to you.
