Djwhal Khul here. Tashi Delek.

Alright. Well, we have the Sun moving into Leo; then we have Mercury going retrograde also in Leo, so I wanted to comment about that. Of course, the Sun, or the Moon I mean goes into Scorpio and the Sun goes into Leo, that is going to bring a lot of fiery change potential for very rapid healing, particularly so healing of old emotional issues. So that occurs on July 22 in the afternoon. I am going to say prior to that time you want to start dumping basically any old emotional baggage and remember that most negative emotions are actually masking a core fear of some sort. So you want to keep asking “What is it that I am afraid of?” or “What has me fearful?” and see if you can flush out the answer on your own.

Then on July 25 late evening, that is when we have the Mercury retrograde. However, it’s going to be in a storm already for about a week before it goes retrograde. So there are again, some more muddled communications and we need to clarify, double check, maybe triple check. Sometimes

you just have to say "Repeat back to me what you think I said, just because Mercury is retrograde I want to make sure we're on the same page." So proceed carefully and everything should be all right as long as you're taking your time to confirm and reconfirm, not to the point of being annoying of course but just to make sure you have it correct.

Alright Dear Ones. As always, thank you and my love to you.
