Djwhal Khul here. Tashi Delek.

Alright. Well, what we have coming down the pike is really quite a large bit of energy. Currently some solar activity affecting the planet. The Mercury retrograde that is coming up also falls on Tibetan New Year or Losar. And then both the Moon and Mercury will be in Psychic Pisces and then we have Uranus going into Taurus for seven years. Last time it was there was during the Great Depression.

So I want to talk about this year's theme which is always *Aligning with Higher Good* and ultimately the lesson in this Universe is Love which means if we center in Love and we don't give fear attention, then we are all right through this time period. Especially so those of you who are seeking enlightenment or are already enlightened and seeking to stay there and not fall off that wagon into the fear quicksand. So essentially there is some work to do to make sure that things are secure in the personal world but mostly it is about feeding love and starving fear.

Alright Dear Ones. Thank you and my love to you.
