Djwhal Khul here. Tashi Delek.

Alright. Well we have Mercury going direct in psychic Pisces, as I like to call it, tomorrow or today technically. *(One moment we have a cat trying to work the touch screen on the computers – Hello Hiroshi – you are now part of the class.)*

I record these the day before they go out so on March 28 we have that in the morning however Mercury will stay in its storm until probably the following weekend, so the first weekend in April is when I expect communications to really start getting clearer.

So what I would say I see now is what I call communication looping so you might start a conversation and get no answer and then somebody else starts another conversation and that goes nowhere and then it might eventually loop back to your first conversation or question or whatever it is. So it's kind of like the same information keeps recycling but there is no resolution for it, there

is no "Did you want a cup of coffee?" and then nobody says "Yes", "No", "Maybe". You get nothing. And so another half an hour goes by and you might ask again "Did you want a cup of coffee?" or "Do you *want* a cup of coffee?" and try to ask differently and it just kind of keeps looping.

So my recommendation, if that's a cycle you are observing, is just let it go, don't bring the topic up again, just drop it and wait until someone approaches you and says "Hey you know how about a cup of coffee?" so you just leave it because it's kind of like there's no ... it's like you're fishing but there is nothing there to catch. So stop fishing basically.

Alright Dear Ones. Thank you and my love to you.
