Djwhal Khul here. Tashi Delek.

Alright. Well it's a very busy week and a very potent one in terms of ascension so that Christed heart energy, that sacred heart energy, the white light pouring in and the installation of Divine Will into the heart chakra is what is happening.

So just that potency through, well actually it is building now as the Moon is building up. Friday, Saturday and Sunday are also going to be extremely strong. Perhaps Friday, let me take a look here, and of course the Sun enters Taurus so there is a Sun sign change. We also have Venus moving into Aries. Those occur on Saturday and of course Easter Sunday. That Moon will move

quickly. So the Moon starts Full for the Christed Moon in Libra and then quickly moves into Scorpio same day, Friday, then by Easter morning it has changed into Sag.

So while that Moon is in Scorpio there is the most amount of healing power and the most amount of ascension energy. So you can ascend to a new level of consciousness. Well there are a lot of death transits opening. I'm just looking around at different charts or areas. And Full Moons tend to bring out some emotions and what not so it's a powerful time.

Then of course Monday April 22 is Earth Day. Do celebrate Mother Earth and work sending healing energy to the planet. That is always very helpful. And then with our Moon in Capricorn, Pluto also in Capricorn, will go retrograde. So that happens on Wednesday, April 24.

Since we're in a Jupiter Retrograde getting ready for Uranus Retrograde and some very strenuous configurations, I expect that to surface into some financial and health concerns.

So it's a good time for detoxing the body, getting rid of inflammation, maybe doing feasting and fasting or adding some electrolytes or probiotics or colloidal silver or something. Just kind of really pay attention to what the body is requiring.

Alright Dear Ones. Thank you and my love to you.
