(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Let's work with a vibrant pink color coming in from above and it's really almost a neon pink. Let's have that energy come strongly through the body. We're preparing for a few things here.

The first is kind of adjusting some upcoming events that are a week or two out actually, but we're going to start feeling the power. [July 2](#) we'll have a solar eclipse on a new moon then we have Venus changing a sign, Independence Day in the USA and then a Mercury retrograde on July 7. So we've got a sequence of things coming up. By the time we get to the middle of July, things take a much more drastic turn. And I see probably July 15 to about July 20 or 25, I'm probably going to say that is a more accurate window, July 15 to July 25, quite a bit of upheaval in general on a planetary scale. So note that might affect relationships, work patterns, money matters, etc. and Mother Nature.

Alright. So bright pink, neon pink, and then we're going to shift the color to a bright blue and maybe keep the blue core right around the throat chakra because that represents Divine Will. And that color will help with thyroid issues, voice box connections but also just the ability to convey Divine Will, to speak willfully from a center of alignment with Higher Good. And then the rest all that bright pink, as much as you can work with, that will assist the Venus shift.

And of course, always continue with the positive thinking. That does matter. It makes a very big difference.

Alright Dear Ones. Thank you and my love to you.
